

Dear Sir or Madam,

Stora Enso Oulu paper mill had to slightly change the fibre share in its paper recipes for the rest of 2020.

For this reason, SE Oulu mill had to change its PEFC claim from (formerly) "94% PEFC certified" to (now) "91% PEFC certified" accordingly as of 19th of February 2020.

Due to a certain amount of products already produced and confirmed and/or stored on stock/in warehouses, cases might arise where for certain orders there are discrepancies (i.e. differing claims, 91 or 94%) on order confirmations, invoices and delivery documents.

In any case, the new PEFC claim "91% PEFC certified" on invoices is the correct and only relevant one for your own PEFC book accounting.

If you need an additional confirmation letter (e.g. about what orders have been delivered with what claim), please directly contact by mail: magnus.deinzer@storaenso.com.

We kindly ask you to excuse any inconveniences this might cause.

With kind regards

Esa Lantto
CoC Responsible
Stora Enso Oulu Oy
